

The Manor
Preparatory School

To Parents of Children in Year 2

Friday 13 December 2019

Dear Parents

ICT in Year 2

We are excited to be able to share with you the platform which the Year 2 children are using to access their computing lessons and activities. It will be used to give the children more opportunities to be creative with ICT across the curriculum areas and not just in computing lessons. It can be accessed via any device that uses an internet browser.

Just2easy is a web based launch site where the children can login and have immediate access to the current apps and programs they are using in school. It allows them to share their work with you at home, practise their skills and also access tasks and challenges set by the teachers. From this same launch page, the children can also access their Maths homework on Active Learn and the Times Tables Rock Stars.

In addition, we would like to draw your attention to the app **J2blast**, where the children can take part in times tables and spelling challenges. We are also able to upload spelling lists for the children and they will be able to find their weekly spelling list here too which gives them yet another fun way to practise at home.

In order to login into j2e.com, children simply need to add these details:

<https://www.j2e.com/>

School: Manorprep

Login: Child's first name, space, first letter of second name FOR EXAMPLE: Sarah P

Password: It is set the same as Active Learn Maths Homework Login.

As the children's skills develop, we will add extra programs to their launch screen and they will, I am sure, be so excited to show you what they can do creatively using ICT.

Kind Regards

Mrs Emma Gower
Head of Years 1 and 2
