MANOR MEMORIES!

I've only ever known what The Manor was like now, and I wanted to find out what it was like in

THE OLDEN DAYS

(around 20 years ago), So I've interviewed teachers who went to The Manor/ have been here for a long time.

Here you go!

Mrs Shaw:

Time they joined the manor: 2005

Favorite lesson: History

Favorite teacher: Mrs Williams and Mrs Putter

Least favorite lesson: None

Teacher: Mr Jackson

Time they joined The Manor: September 2010

Favorite lesson: Swimming

Favorite teacher: Mr Roberts, Mr Butler

Least favorite lesson: Year 6 Maths, "it's really hard!"

Anything else: "It was really hard to teach P.E when we only had the main hall to do it in! Thank goodness for the sports hall."

Manor Secrets by Megan P

You may know most of these secret places, but you may not.

- If you walk about 5 metres from the slope at the far side of the bank, you will come to a hole in the hedge. If you go right into the hole, and turn left, you will go through a small, cramped tunnel (you might get scratched a bit) you will come to an opening further down the hedge.
- Apparently, there is a cellar under the Manor house! Sadly no one has bothered to search for it, but people say that the trap door to it is in the room between the school office and the nurse's room. Why don't you try and look for it yourself? You will have to come up with a good excuse to get into the Manor House!
- Did you know that Mr. Stepney actually lives at The Manor? He lives on the top floor, where the windows stick out of the roof. His house is really in the logo!

Kingdom Animalia!

Star of the Issue:

The Echidna!

Echidnas, sometimes known as spiny anteaters, are the only living mammals that actually lay eggs. They are part of the family Tachyglossidae, and have spines like a porcupine, beak like birds and pouches like kangaroos. They are found in Australia, Tasmania and New Guinea, but their natural habitats are forests, woodlands and grasslands!

Sadly, these spiky critters are critically endangered, and their population has been decreased by 80% since the 1960s. Today, there are only about 10, 000 of them left in existence.

Cooking with A-Shaw

A Shaw family recipe!

how to make it!

Step 1

First put water into the sauce pan and put it on the stove on 6 (ask your parents to help you with this). Then break up the chocolate and put it into the glass bowl and put the bowl on top of the saucepan to melt it!

Step 2

Get a big plate and put the mini cup cake cases on the plate. Then when the chocolate is melted get an adult to help you to put the chocolate into the cupcake cases. (save a little for later)

Step 3

Next get the marshmallows and put them in to the cupcake cases with the chocolate.

Step 4

Dab the rest of the chocolate on top of the marshmallows and use the chocolate as glue and put the smarties on the chocolate!!!!
